

# IPADE facing the COVID-19

April 30th, 2020

## International Exchange Program (continuation)

Dear Full-Time MBA Participants (First year Mexico and Monterrey campus):

Following up on the announcement **published on March 18th** regarding the International Exchange Program and after being in constant communication with most of our Partner Schools, we inform you that, with the objective of continuing the international exposure during your Master's Program, we have decided **to postpone the exchange quarter to January - April 2021**, leaving the September - December 2020 quarter with regular sessions at IPADE.

In due time we will inform you the specific courses that will take place during this quarter along with all the relevant dates, based on the 5th quarter that is normally taught after the exchange term.

Because of this quarter modification we will start the exchange school selection process again as we need to perform some adjustments with them. **Next Monday, May 4th we will publish in Canvas** the detailed information so you may choose your most convenient options again. **The deadline to make this new selection is June 25th**, so we can nominate you on the 30th of that same month.

We ask you to please be very attentive to the information we will be posting in Canvas so you may be aware of the details and characteristics of the Schools, courses and relevant dates.

Best regards,

**Ernesto Bolio Barajas**

Corporate Director of the Full-Time MBA Program
